

Remote Technology Pulpit Supply List (Last Updated: 7/17/2020)

The following list is a resource to support your congregation during times when you need a supply preacher who is able to utilize technology. This is a list of those who are available and authorized to provide pulpit supply in the Southern Ohio Synod. It includes, pastors, deacons, clergy from other traditions, lay worship leaders, seminarians, seminary graduates, and other candidates for rostered ministry. This list will be updated regularly so please check back before each use.

Obtaining a Preacher for Remote Pulpit Supply

1. Congregations are so diverse in their use of technology for worship, it will be up to each congregation to work out the details with the preacher
2. Contact the potential preacher from the Remote Technology Pulpit Supply List via email. Include date(s) and a basic description of what you are hoping they will be able to do. Follow up by phone if the person is interested and available.

The Southern Ohio Synod Compensation Guidelines for pulpit supply are as follows:

- One Service: \$175 (If the sermon is recorded and reused for multiple services, the honorarium is still \$175)
- \$25.00 for leading worship each additional time that same weekend.
